

Dear Valued Guests,

Because our primary concern is always the health and safety of our team members and guests, and in light of recent coronavirus (COVID-19) concerns, we wanted to let you know that we are increasing our already high standards to make our Vacation Rentals as safe as possible. We are closely following the latest guidance from the Centers for Disease Control (CDC), local governments, and public health agencies. All team members will uphold and practice the precautionary measures below:

1. We make proper handwashing a priority.
2. We are increasing frequency of our cleanliness and sanitization procedures.
3. We are making sure any team member feeling sick stays home.
4. We have limited all personal air travel.

We are committed to keeping you safe while in our Vacation Rentals and reassuring you that we are taking added precautions.

We are prepared to navigate these challenging circumstances with our guest's safety in mind. Thank you from River Road Vacation Rentals.

Sincerely,

Katie Riedel
Manager
